We met for at a minimum 30 minutes every week for 12 weeks this semester. **(6 hours)**
Each week I spent another 30 minutes prepping for the meeting itself, sending emails, making a power point etc. **(6 hours)**
Each week for the first 6 weeks, I spent roughly an 2 hours each week on code, bug fixes etc (
(12 hours)
As time got closer to the expo, I was spending between 5-7 hours a week on EVA for 4 weeks
(6*4 = 24hours)
The week prior to and the week of the expo, I spent about 20 hours on the Project and then 10 hours across the 2 expos, so that makes **(40 hours)**

All that being said, collectively A conservative estimate for me for this semester on EVA is **88 Hours**
